

Remote Clinical Coding

Here to help

We can relieve the pressure to deliver high quality clinically coded data during a time of enormous strain, and allow you to focus on what you do best – deliver high quality healthcare to patients

What are the **operational benefits** of CHKS's remote clinical coding service?

It **strengthens** existing coding teams

Is **fully digital** – quick and easy to implement

Reduces hospitals' administrative costs

Enables healthcare professionals to focus on delivering care

What are the **reputational benefits** of CHKS's remote clinical coding service?

Improves the accuracy of clinical coding, which enhances Trusts' performance and reputations overall

Provides peace of mind that data is consistently and continuously produced during difficult times

We're the largest independent supplier of clinical coding services to private healthcare providers and the NHS – we clinically code more than 350,000 episodes of patient care annually.

Let us take care of the back office while you focus on the front line.
